Product Specification Sheet

Targus Combination Case

Part #: TST019EU

Product Description:

Targus has created an innovative 2-in-1 notebook case that can be carried either as a backpack or standard case. Constructed from high quality nylon it offers the maximum protection for your notebook. Designed to fit notebooks up to 15.4", this case has an up to date look and feel but retains all the style an executive requires. There are many 'smart' features throughout: a removable padded notebook slipcase, a separate file section, hideaway handles and shoulders straps, accessory pockets and side pockets for storing items such as umbrellas/water bottles. This case is perfect for those wishing to carry a lot in a design offering a spacious workstation with compartments for your mobile essentials and miscellaneous items. This case is perfect for any executive seeking flexibility, storage, innovation and notebook protection together in one case.

Product Features and Specifications:

- Capacity: Removable padded notebook sleeve with handles designed to fit notebooks with up to 15.4” screens
- Carrying Choice & Comfort: Solution offers the user choice to preference of carrying as a backpack or standard case. Retractable handles for maximum comfort whilst carried as a backpack
- Organisation: Zip-down workstation containing pockets and holders for business accessories, separate file section and side pockets for water bottle and umbrella
